

UNIVERSAL 1000i

World's Most Versatile Depositor

Our *Universal 1000i* versatility makes it easy to use for all your depositing needs. The telescopic power-lift stand lowers the base to floor level for easy manual filling. The Universal can be fitted with a wide variety of attachments including Handheld Nozzle, Drip Free Nozzles and many more to accommodate a wide range of depositing applications. Heavy duty construction and more power (for stiffer products and higher speeds) than the Compact Depositor.

Advantages

- One Turn Calibrated Deposit Speed Dial.
- Performance Indicator
- Heavy duty all stainless steel construction mobile low profile frame with Power lift - for ease of filling
- Easy access stainless steel air connections for attachments and accessories located on front face plate.
- All machine controls conveniently accessible under stainless steel enclosure.

System Includes

- 1000i Base
- Large 14-gallon (52 liter) conical hopper
- Build-in pneumatic Lift for lowering the complete machine and bring it back up again

Attachments and cylinders are not included in the system, as this depends on the customers needs.
